EXPERIENCE

1. Stokhos Research Capital LLP | (Mar 2024 - Aug 2024):

- Developed web applications using Flask for secure user authentication and dynamic content rendering.
- Implemented data processing pipelines with Pandas for handling Excel and CSV files efficiently.
- Utilized web scraping with requests for automated data extraction and data manipulation tasks.
- Secured user data with Werkzeug for password hashing and optimized performance with asynchronous requests.

2. NexGen Web Solutions | (Jun 2023 - Nov 2023):

- Developed website elements using HTML, CSS, JavaScript, ReactJS, and integrated Rest APIs for seamless functionality.
- Contributed to UI design, enhancing user experience and interface aesthetics.
- Improved website visibility and performance through SEO optimization techniques.
- Built multiple websites, demonstrating expertise in frontend development; familiar with Spring Boot, PHP, MySQL, and MongoDB.

EDUCATION

- **B.Tech. In Computer Science and Engineering** | **Galgotias College of Engineering & Technology** | Greater Noida, Uttar Pradesh | Aggregate : 8.76 CGPA | AUG 2019 - JUN 2023
- **12th** | **G.D.N.D.S.N. Inter College** | Karwi, Uttar Pradesh | Aggregate: 82.8% | 2018 - 2019
- **10th** | **G.D.N.D.S.N. High School** | Karwi, Uttar Pradesh | Aggregate: 87.5% | 2016 - 2017

PROJECT HIGHLIGHTS

Turnover Management & Position Clearing Portal: [Link](#)

- Developed secure Flask apps with user authentication, dynamic content using Flask.
- Built data pipelines for Excel/CSV processing using Pandas, OS, glob, and logging.
- Automated data extraction with Python requests and optimized file handling with OS and datetime.
- Secured data using Werkzeug & enhanced performance with asynchronous requests & efficient workflows.

PG Life Website: [Link](#)

- Developed PG Life Website to simplify hotel room search based on user's local position in any city.
- Utilized HTML, CSS, & JS for frontend development, ensuring seamless navigation & user experience.
- Employed PHP for backend development to manage server-side operations efficiently.
- Integrated MySQL for robust website data storage and retrieval.

Online Resume Builder Website: [Link](#)

- Seamlessly create and download personalized CV templates using our online resume builder.
- Developed with HTML, CSS, JS, and React to ensure a user-friendly design and smooth experience.
- Customize your CV easily with various templates and layouts tailored to your professional needs.
- Download your completed resume in multiple formats, ready to submit to potential employers.

SKILLS SECTION

- **Programming Languages** – Java, Python
- **Framework & Library** – ReactJS
- **Backend** – Springboot, Hibernate, PHP
- **Database** – MySQL, MongoDB
- **Testing** – JUnit
- **Others** : Git, GitHub, JSON ,HTML, CSS, JavaScript & MS EXCEL
